[Full Online>>: A Marker To Measure Drift

Select the Perimeter tool to measure a set of distances between multiple points. Click each point you want to measure. Then, double-click the last point. Select the Area tool to measure the area within the line segments that you draw. Click each point you want to measure.

Grids, guides, and measurements in PDFs, Adobe Acrobat

The proposed measure is based on the maximum of the AUC and 1-AUC. The existing methods are applied to estimate the measure. The subset of markers are selected using a combination method which maximizes a function of the proposed discriminatory score with the number of markers as a penalty in the function.

An additive selection of markers to improve diagnostic

While this talk concentrates on biomarkers and human biomonitoring, ... represents an actual measure of integrated exposures via all routes of exposure which is not ...
