La patogenia o nosogenia es la secuencia de sucesos celulares y tisulares que tienen lugar desde el momento del contacto inicial con un agente etiológico hasta la expresión final de la enfermedad. [1]

Patogenia - Wikipedia, la enciclopedia libre

Leukocytosis is very common in acutely ill patients. It occurs in response to a wide variety of conditions, including viral, bacterial, fungal, or parasitic infection, cancer, hemorrhage, and exposure to certain medications or chemicals including steroids.

Leukocytosis - Wikipedia

Cardiac tamponade, also known as pericardial tamponade, is when fluid in the pericardium (the sac around the heart) builds up, resulting in compression of the heart. Onset may be rapid or gradual. Symptoms typically include those of cardiogenic shock including shortness of breath, weakness, lightheadedness, and cough. Other symptoms may relate ...

Cardiac tamponade - Wikipedia

Cardiac tamponade is a condition in which fluid or blood accumulates in the pericardial space, the sac-like structure that surrounds the heart. This accumulation of fluid or blood can compress the heart, preventing it from pumping blood effectively. Symptoms of cardiac tamponade include chest pain, shortness of breath, and a rapid heart rate. The condition is a medical emergency and requires prompt treatment.

Cardiac tamponade - Wikipedia

Cardiac tamponade is a condition in which fluid or blood accumulates in the pericardial space, the sac-like structure that surrounds the heart. This accumulation of fluid or blood can compress the heart, preventing it from pumping blood effectively. Symptoms of cardiac tamponade include chest pain, shortness of breath, and a rapid heart rate. The condition is a medical emergency and requires prompt treatment.
