Industry Insights. The global industrial microwave heating equipment market size was valued at USD 890.2 million in 2016. Escalating demand in numerous end-use industries such as paper, food, plastic, wood, and derivatives, and chemical is projected to boost the market over the forecast period.

Industrial Microwave Heating Equipment Market Size Report

A microwave oven (also commonly referred to as a microwave) is an electric oven that heats and cooks food by exposing it to electromagnetic radiation in the microwave frequency range. This induces polar molecules in the food to rotate and produce thermal energy in a process known as dielectric heating.
