CARE believes that access to quality sexual and reproductive health is both a fundamental human right and a critical development issue. SRHR is a vital component of CARE's work to reduce poverty and social injustice.

Sexual and Reproductive Health and Rights | CARE

Practice development focuses on methods to address the quality of care and advance healthcare practices. The role of practice development facilitators to address challenges of delivering evidence-based person-centred care in the critical care environment was determined by using a nominal group technique.

A creative analysis of the role of practice development

The United States is entering a new era of health care delivery in which changes in health care policy are driving an increased focus on costs, quality, and transparency of care.
