

land and water use pdf

The State of the World's Land and Water Resources for Food and Agriculture This flagship report analyses a variety of options for overcoming constraints and improving resource management in areas of heightened risk.

Land & Water - Food and Agriculture Organization

Land Use practices vary considerably across the world. The United Nations' Food and Agriculture Organization Water Development Division explains that "Land use concerns the products and/or benefits obtained from use of the land as well as the land management actions (activities) carried out by humans to produce those products and benefits."
