Learn to Code Code to Learn Is it important for all children to learn how to write? Very few children grow up to be journalists, novelists, or professional writers. So why should everyone learn to write? Of course, such questions seem silly. People use writing in all parts of their lives: to send birthday messages to friends, to jot down shopping lists, to record personal feelings in diaries ...

An introduction to programming concepts with Scratch

By far, the hardest thing about learning a programming language is the fact that no element exists in isolation. Instead, the components of the language work in conjunction with each other. This interrelatedness is especially pronounced in Java. In fact, it is difficult to discuss one aspect of Java without involving others. To help overcome this problem, this chapter provides a brief overview ...
