Today, companies know they must adapt quickly or die. They are increasingly seeking to adapt by using agile principles and practices - but many are still changing too slowly, and can't sustain change. Fortunately, a growing number of enterprises have found a far more effective solution: the Scaled Agile Framework (SAFe).

Purified water is water that has been mechanically filtered or processed to remove impurities and make it suitable for use. Distilled water has been the most common form of purified water, but, in recent years, water is more frequently purified by other processes including capacitive deionization, reverse osmosis, carbon filtering ...
