Photo Techniques. 141 Portraits Photography that takes advantage of the superiority of large-aperture lenses. Communication between the photographer and the model in portrait photography is very important. For this reason among others, lenses between 50mm and 135mm are often used, in order to maintain a certain distance from the model. The standard zoom lenses which are often sold together with ...

styles to achieve a professional look. You might easily be tempted to “jazz-up” your documents with all the special effects you can muster “ if you do this, you may end up having more fun than your readers. Restraint is essential, so that the content of documents is clearly understood. Typography should not call attention to itself “ its purpose is to make work easier for the reader ...
