WPC is a metal surface treatment process using controlled micro shot peening method WPC is a proven process that has been utilized for many years in the racing and automotive industry.

### **WPC - Metal Surface Treatment / Micro Shot Peening**

A road surface or pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway.

### **Road surface - Wikipedia**

Surface finishing is a broad range of industrial processes that alter the surface of a manufactured item to achieve a certain property. Finishing processes may be employed to: improve appearance, adhesion or wettability, solderability, corrosion resistance, tarnish resistance, chemical resistance, wear resistance, hardness, modify electrical ...

### **Surface finishing - Wikipedia**

1.0 Introduction Surface preparation is the essential first stage treatment of a substrate before the application of any coating. The performance of a coating is significantly influenced by its
