Spalting is any form of wood coloration caused by fungi. Although primarily found in dead trees, spalting can also occur in living trees under stress.

Spalting - Wikipedia

Detritivores, also known as detritivores, detritophages, detritus feeders, or detritus eaters, are heterotrophs that obtain nutrients by consuming detritus (decomposing plant and animal parts as well as faeces). There are many kinds of invertebrates, vertebrates and plants that carry out coprophagy.

Detritivore - Wikipedia

The following lists are selected micro-organisms which present minimum risk given good practice. As a result of changes to the hazard categorisation of certain micro-

Suitable and unsuitable micro-organisms
